Profile Summary

Full Stack Developer with a strong focus on backend systems and AI-driven features, experienced in building scalable, real-world applications. I've worked with the MERN stack and Django to develop efficient APIs and integrate AI models into products that solve practical problems. I prioritize performance, clean architecture, and shipping end-to-end features quickly. I also have a solid foundation in Data Structures and Algorithms, which helps me write optimized and production-ready code.

Education

Bachelor of Technology (Computer Science and Engineering) CGC University, Mohali CGPA: 8.7	2023 – 2027
Senior Secondary Education (CBSE) Jawahar Navodaya Vidyalaya, Panchkula, Haryana Percentage: 85%	2023
Secondary Education (CBSE) Jawahar Navodaya Vidyalaya, Panchkula, Haryana Percentage: 92%	2021

Projects

AI-Powered Code Review System

- Built a system to analyze GitHub pull requests and generate code improvement suggestions using LLMs.
- Integrated asynchronous processing using Celery and Redis for handling concurrent requests and Rabbit-mq as message broker.
- Implemented rate limiting and efficient API handling for external service constraints.
- Enhanced code quality analysis by detecting bugs and suggesting optimizations.
- **Tech Stack:** Django Rest Framework, Rabbit-mq, Redis, Python ,celery

Distributed Real-Time Messaging System

- Built a real-time chat system using Apache Kafka handling concurrent users with asynchronous message processing.
- Designed producer-consumer architecture ensuring reliable and ordered message delivery.
- Optimized backend for high-throughput communication using multithreading.
- **Tech Stack:** Python, Django, Apache Kafka, PostgreSQL

Skills

• Technical Skills:

- **Languages:** Python, JavaScript , c++, java.
- **Frontend:** Reactjs, HTML , css.
- **Backend:** Django, Rest framework, fastapi,celery, Redis, Kafka, Elasticsearch, express.
- **Database:** MongoDB, MySQL .

- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks.
- **Soft Skills:** Problem Solving, Ambitious, Team Work

Achievements & Participation

- Solved 130+ Data Structures and Algorithms problems on **LeetCode**.
- Competed in multiple hackathons, delivering practical solutions under time constraints while strengthening problem-solving speed and cross-functional teamwork.

Certifications

- Database and SQL — Infosys Springboard [2026]
- Introduction to Generative AI Foundation — AWS Academy [2026]
